

# Sree Abirami College of Pharmacy

## **B.Pharm – Research Projects - 2021**

<b>S.No</b>	<b>Project Title</b>
1	<i>In vitro</i> Pharmacological evaluation of modified Benzimidazole derivatives
2	Formulation and evaluation of herbal under Eye Derma gel
3	Development of multi-purpose skin care Herbal cream
4	Formulation and evaluation of Poly-herbal Anti-arthritis ointment
5	Formulation and evaluation of poly herbal soap
6	Formulation and evaluation of poly-herbal anti oxidant face scrub
7	Formulation and evaluation of enteric coated microspheres of Aspirin
8	Formulation and evaluation of herbal face cream with Green tea extract
9	Role of some Nutraceuticals, food and dietary supplements in immunity development
10	Role of some herbal dietary supplements in the management of covid-19 treatment
11	<i>In vitro</i> biological evaluation of modified Naphthalene derivative
12	Approaches for the design of Transdermal drug delivery system of Aspirin

## B.Pharm – Research Projects - 2022

S.No	Project Title
1	In vitro Anti oxidant and anti inflammatory activity of the ethanolic extract of silver Nanoparticle from endosperm of <i>Terminalia Chebularetz</i>
2	Formulation and evaluation of Capsaicin loaded Microsponges in Aloe-vera gel
3	Formulation and evaluation of Quercetin loaded Microsponges in gel
4	A comparative study on In vitro anti-oxidant and anti inflammatory activity of ethanolic extract and silver Nanoparticle of <i>Hypertelis Cerviana Linn</i>
5	Formulation of Herbal dietary supplements to manage the occupational diseases
6	Herbal formulation on dietary supplements related to non-communicable diseases
7	Spectro-Fluorimetric method development and validation of Tetracycline in Capsule dosage form
8	Formulation and evaluation of Chitosan loaded Nanoparticle of <i>vitisuinifera</i> Seeds for anti oxidant activity
